

### Clinical Occupational Therapy

*Creative Therapy's experienced team of professionals has partnered with various private businesses, individuals and crown corporations to deliver evidenced based, client centered care for their clients. Creative Therapy strives to strike the perfect balance between high service levels to the individual client and the budgetary consideration for the organization.*

### Return to Work Management

*Return to Work Management is a specialty for Creative Therapy Consultants. They help their clients' employees who are on disability navigate the complicated healthcare system, which can not only lead to faster and more complete recoveries for the employees, it can also save employers millions of dollars in claims costs.*

### Case Management

*Creative Therapy has partnered with organizations such as ICBC, WorkSafeBC to assist in managing all aspects of a client's rehabilitation. This includes assisting with hospital discharge planning, provision of medical equipment and coordination of rehabilitation services.*

### Cost of Future Care Assessment

*A Cost of Future Care Assessment provides recommendations for the current and future needs of individuals who have experienced an injury and have ongoing medical needs. This assessment is most commonly used during court proceedings to determine an appropriate settlement amount.*

# We service communities across BC
